

1. It is the contractor's responsibilities to minimize sediment travel onto adjacent property or streets. Erosion control must be in place as shown on the plans or as directed by the inspector. The erosion control is to be maintained until seeding has re-established vegetation. The Best Management Practices (BMP) Manual for Residential and Commercial Land Uses shall govern all erosion control measures. The construction entrance is to be used at all times. **Mud in the public rights-of-way is strictly prohibited.**
