|---|---------------------------------|
| <b>Request:</b>   | <b>Date Required: 2/29/2012</b> |
| 1) There are some inconsistency's with plans for FEC locations in corridors.<br>3.1A shows 2 FEC<br>3.2A shows 1 FEC<br>3.3A shows 1 FEC<br>3.4A shows 2 FEC<br>Do you want 2nd FEC added for 2nd & 3rd floors?         |                                 |
| 2) On sheet 3.4F - FEC mark is missing on A4 All G wall.<br>The FEC is shown on 1st, 2nd and 3rd floors, does the FEC need to be included at 4th floor?<br>Please verify all sections for coordination and consistency. |                                 |
| 3) Do we need fire extinguishers in club/leasing? We have assumed 1 for club and 1 for leasing.   |                                 |
| 4) Do we need FE in parking garage and if so what type of mounting?   |                                 |
| <b>Requested by:</b> Bryan Pickler<br>Embrey Partners, Ltd.   |                                 |

|                               |  |
|-------------------------------|--|
| <b>Response:</b>              | 1- Yes.<br>2- Yes. I've checked all locations and the one's you mentioned are the only problem locations. I adjusted 2 other FEC locations by moving them a foot or so now all FECs line up in the same spot from floor to floor (except for the Club and Garage areas).<br>3- I've placed the 2 FECs you mentioned in sheet 9.1<br>4- Yes, we need them in the parking garage. I've updated the sheets to reflect this. Double check with your local Fire Marshall, but I'm confident that a surface mounting will be fine. |
