Subject: Dimensions on sheets 3.5A & 3.5B

Drawing: 3.5A & 3.5B
Cost Impact: None

Spec Section:
Schedule Impact: None

Request: **Date Required:** 9/25/2012
On the roof plan 3.5A at exterior parapet wall at the A3 All.2 unit there is a small area showing 4'- 1" A.P.L. next to the 6'- 0" A.P.L. this same thing happens on the next sheet 3.5B in similar location. What and why is this needed? It is not shown on the building elevation on 2/4.1 or 2/4.3

Requested by: Bryan Pickler
Embrey Partners, Ltd.

Response:
These little "cut outs" in the parapet are part of the old design that were not taken out updated similar to the "MECHANICAL CHASE FROM RETAIL" callouts that are not accurate anymore on the roof plans. SK-10 has fixed all of these.
