Addison, TX 75001

**Subject: Engineer Letter of Substantial Completion
 AMLI Addison – Off-site Sanitary Sewer**

KHA Ref: 063257052

Mr. Kakembo:

The purpose of this letter is to state to the Town of Addison that, to the best of our knowledge and as limited by our scope of services, the off-site sanitary sewer is substantially in accordance with the approved Civil Construction Documents.

North Texas Contracting provided, via email, that the only change to the approved plans was an interior drop connection at STA 18+99.05 due to existing elevations, as indicated on the attached record drawings (revision 2). North Texas Contracting has provided the attached report and video inspections.

Electronic files of the above listed items have been sent to you via email at wkakembo@addisontx.gov. Please contact me at (972) 731-2192 or ryan.safford@kimley-horn.com should you have any questions or additional comments regarding this package.

Sincerely,

Ryan Safford, P.E. (TX)
Vice President
