Sandy,

That is fine.

Thanks,
Clay Barnett, P.E.
Assistant Town Engineer
Town of Addison
16801 Westgrove Drive
Addison, TX 75001-2818
Office: (972) 450-2857

Clay

I can have the initial plans brought to you tomorrow morning, would that work? Sandy

Sandy,

The only item I require is the civil plans. The civil plans should include a paving plan for the driveway, grading plan, drainage plan, utility plan and erosion control plan and be on 24"x36" sheets. They do not necessarily need to be on separate sheets, but they do need to be submitted as a complete package. The Town of Addison will review the drawings and any comments will be returned to the design engineer. Once all comments have been addressed, we can schedule a preconstruction meeting. Permits for the site work will be issued at the preconstruction meeting.

Please note that if the area of disturbance is greater than one acre, a copy of the SWPPP is required to be submitted.

If you have any questions, please feel free to contact me.

Thanks,
Clay Barnett, P.E.

Mr. Barnett,

I am the builder with the property on Lake Forest. I believe our engineer, Mr. Lennamond has submitted to you a drainage plan and we are in the process of submitting a utility plan.
