50	1000	1500	2640	500	280
55	1000	1500	2640	860	335
60	1000	1500	2640	720	415
65	1000	1500	2640	780	485

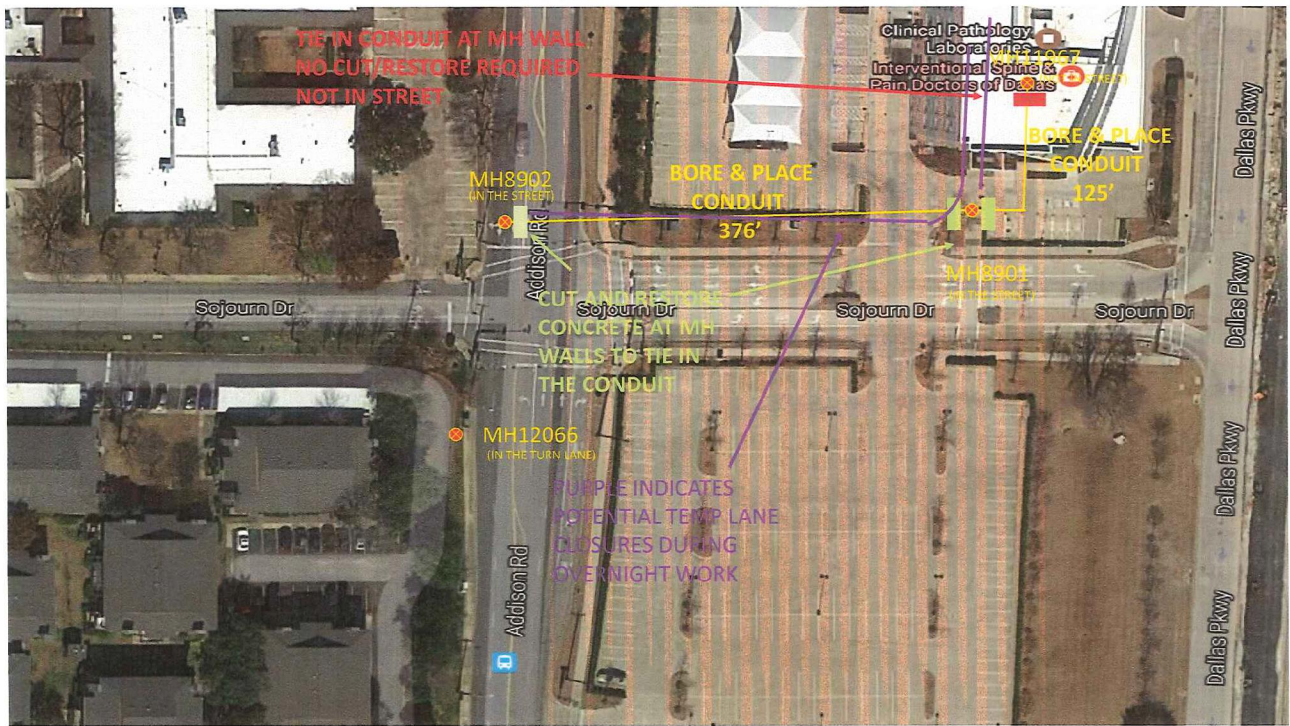

This permit is for the installation of 3 new conduit paths between manholes, due blocked connectivity/ducts. Conduit to be placed by underground bore, bore pits and conduit tie in to be done at MH walls – we will cut and restore concrete where MH walls that are located in a street. The 3 locations are as follows – [please reference attached 2 page power point for MH locations and potential temp lane closure/traffic control.](#)

- 1) Between MH11967 & MH8901 – both located on SB service road of DNT near Sojourn Dr.
- 2) Between MH8901 & MH8902 – corner of DNT & Sojourn west to Sojourn & Addison Rd
- 3) Between MH12066 & MH12067 – start at NB turn lane at Addison Rd & Sojourn south approx. 685' to next MH along Addison Rd.

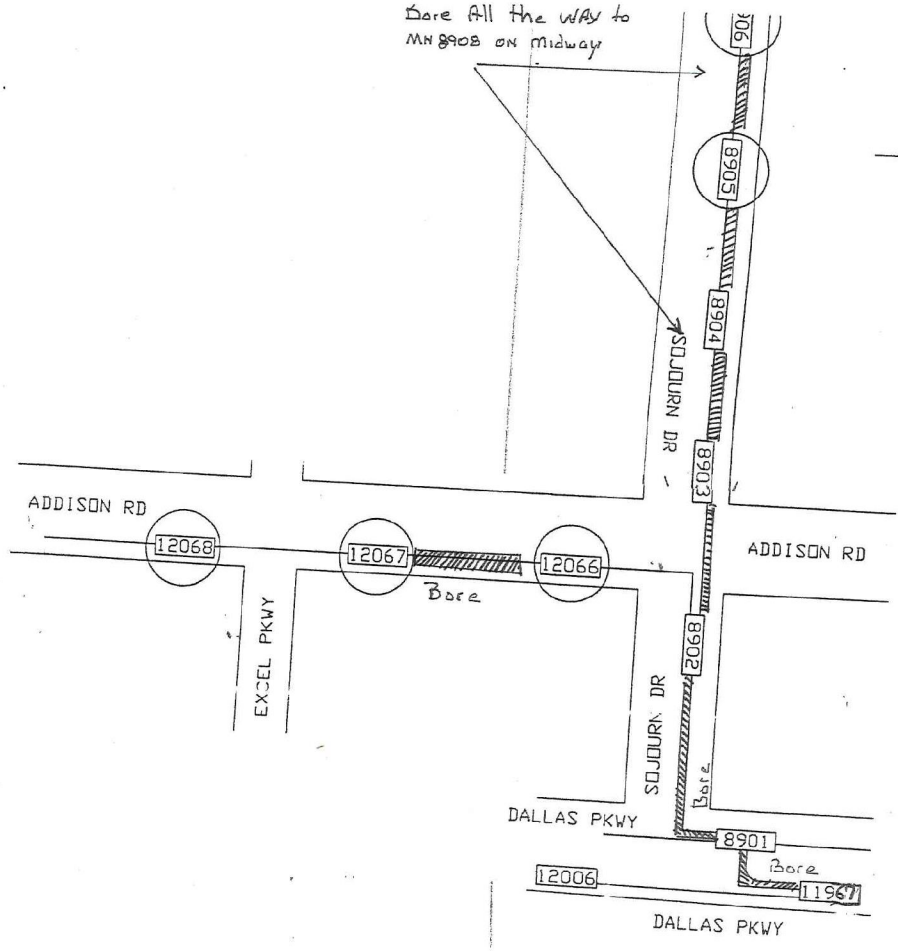

We are requesting the permit to enter and showdown lanes the manholes fall within. All work is to be done at night as well. See attached traffic safety control plans. For intersections use page 701 and below, for just roadway traffic plan see attached Double lane closure on a divided roadway.

This will be the 1st phase of this total project. Future permits will be applied for as work continues west down Sojourn Dr. to Midway Rd.

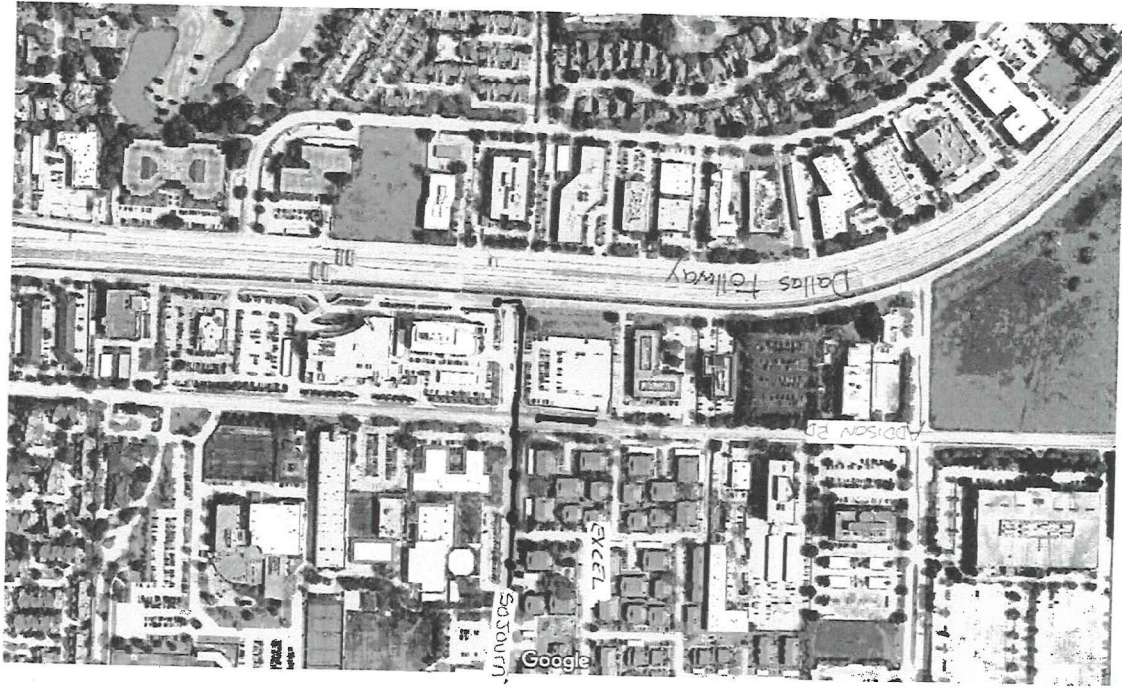

Dare All the way to
MH 8908 on Midway

CONSTRUCTION / GENERAL NOTES DESCRIPTION

1. It is not the intent of these construction notes to cover all details and/or specification requirements of the Cities/AT&T. All work and materials shall be in accordance with the City's ordinances, rules, policies, requirements and regulations, as well as any other applicable state and/or federal rules, regulations and/or requirements, as they exist or may be amended. Engineering drawings shall govern for construction of all Civil Improvements.
2. The existence and locations of all underground utilities shown (main lines, no lateral or service shown) on the drawings were obtained from available records and are approximate. Neither the owner nor the engineer assumes any responsibility for utilities not shown or not in the location shown. The Contractor shall determine the depth and location of existing underground utilities prior to trenching and shall be required to take any precautionary measures to protect all lines shown and / or any other underground utilities not of record or not shown on the plans. Contractor shall be responsible for contacting all franchise and city utilities prior to construction.
3. Any Contractor / Subcontractor performing work on this project shall familiarize himself with the site and shall be solely responsible for any damage to existing facilities resulting directly or indirectly from his operations. Said existing improvements shall include but not be limited to, beams, ditches, fences, and plants. Any removal or damage to existing improvements shall be replaced or repaired by the Contractor at his expense and shall be approved by the city.
4. All construction, testing, and materials or to repair existing structure shall meet or exceed all requirements of the City and or AT&T. All submittals must be originals with signatures where applicable; facsimiles or emails shall be followed up with originals.
5. If required, all testing shall be done by an approved laboratory at the expense of the Contractor. The City will only accept signed original copies of all testing reports for review.
6. **TRAFFIC CONTROL NOTE:** contractor shall provide traffic control plan, at least 48 hours prior to any work in a city street. Traffic control measures shall conform to part vi of the Texas manual on uniform traffic control devices and the city of mesquite work zone traffic control manual. traffic control measures shall be installed for any work activity that takes place or adjacent to any city street or roadway, the city engineer may require the traffic control plan to be designed and sealed by an engineer licensed in the state of Texas.
7. **TRAFFIC CONTROL LEVCE NOTE:** contact traffic engineering division, at least 48 hours prior to work requiring the removal or relocation of traffic signs, traffic control equipment or other traffic control appurtenances.

TEXAS 811 CONTRACTOR MUST CALL AT 811 AT LEAST 48 HOURS BEFORE BEGIN ANY CONSTRUCTION WORK.
