Re: Keller Springs Tunnel - Addison Airport

Dear Mr. Welch:

Thank you for taking time to meet with us to discuss our airport and the challenges associated with the Texas Turnpike Authority's (TTA) efforts to construct the tunnel under the airport. As we mentioned, the three main issues regarding the airport are compensation to the lease holders, relocation of displaced aircraft, and replacement of land acquired for right-of-way.

Addison is working with the TTA to fairly compensate the parties effected by the tunnel construction. We are negotiating settlements with all of the investors and will provide tie-down space to any displaced aircraft. These efforts are all being accomplished with the funds provided by the TTA to acquire the property for the tunnel.

The remaining issue involves the replacement of land at the airport being used for the tunnel. The TTA is acquiring a total of 3 acres of airport property for right-of-way for the tunnel. Because our current contract with AATI provides us with limited resources to invest in airport improvements, we would propose to replace the 3 acres of property by December 31, 2001.

There are several vacant tracts and two occupied tracts that abut the west side of the airport that the Town is interested in acquiring for airport use (see exhibit I). The Town respectfully requests the FAA consider each of these properties as acceptable replacement land, provided that they total at least three acres and are a minimum of one acre in size.

The Town feels that the temporary loss of the three acres will not hinder new development at the airport. Currently, there are approximately 20 acres on the airport available for development (see exhibit I). This property should be sufficient to meet the needs of the aviation community for the next 5 years.

Mr. Otis Welch Page Two

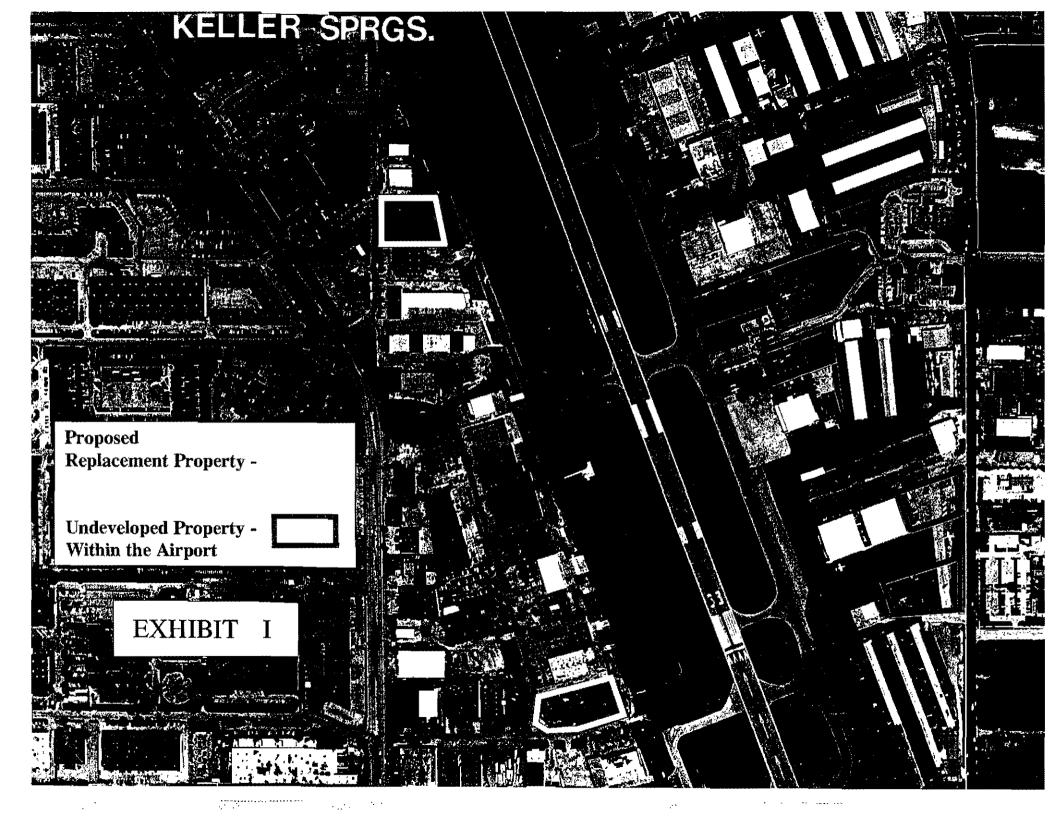

I trust that this adequately explains our plans for the airport to mitigate the impacts from the tunnel project. Should the FAA find this appropriate, we would be happy to develop an agreement to acquire the replacement property.

Please call John Baumgartner (972) 450-2871 if you have any questions or need additional information.

Sincerely,

Ron Whitehead

City Manager

James W. Griffin, Executive Director Texas Turnpike Authority 3015 Raleigh Street P.O. Box 190369 Dallas, Texas 75219

Re:

Addison Airport Toll Tunnel

Dear Mr. Griffin:

Thank you for your letter dated February 20, 1997 regarding final right-of-way negotiations in preparation for construction of the toll tunnel. Mr. Whitehead asked me to write and express to you our appreciation for your offer of assistance to work with the FAA in resolving any issues related to the design, construction, proposed operation, or future maintenance of the Tunnel. We welcome your assistance in this regard and would like to meet with you and your staff to brief you on the status of our relationship with the FAA following Mr. Whitehead and the Mayor's March 6 visit to the FAA's Regional Office in Fort Worth. We will then include you in all future FAA meetings and discussions pertaining to the toll tunnel. I have enclosed a copy of the correspondence from the FAA detailing their concerns about the airport land impacted by the construction of the toll tunnel and I will send you any future correspondence with the FAA on this matter.

The Town staff and Mr. Whitehead remain confident that we can reasonably accommodate the concerns raised by the FAA. Mr. Whitehead has maintained a twenty-year relationship with the FAA's Southwest Regional Office and is quite familiar with their process for reviewing any matters related to Addison Airport. For this reason, and through continued constructive dialogue with the FAA, we anticipate all matters will be resolved.

We are excited about getting construction underway and are committed to making the tunnel project a success. If you have any questions about the upcoming meeting with the FAA, please call me at 972/450-7010 or Mr. Whitehead.

Chris Terry

Assistant to the City Manager

December 18, 1996

Mr. Ron Whitehead City Manager Town of Addison P.O. Box 144 Addison, TX 75001-0144

Dear Mr. Whitehead:

This is in response to your letter of December 5, 1996, concerning the Keller Springs Tunnel under Addison Airport.

Your letter of October 13, 1994, offered a frame work under which the Federal Aviation Administration (FAA) could agree to the release of land for the subject project. The land release issue centers on the premise that there is a benefit to civil aviation. As discussed in our meeting of November 21, 1996, and listed below are the requirements for the release of the land. The town of Addison must demonstrate the following:

- a. The land is no longer needed for aeronautical purposes
- b. The airport is receiving the fair market value for the property
- c. The airport has an immediate need that can be accomplished using the sale proceeds

If each of these points can be addressed, the town of Addison will need to formally request approval from the FAA for a release and sale. Your request should cover the following items:

- a. What agreements with the United States obligates the land?
- b. What is requested?
- c. Why the release of obligation is requested?

- d. What facts and circumstances justify the request?
- e. What requirements of state or local law should be considered in the language of an FAA issued document if the request is granted?
- f. What property is involved?
- g. How was the property acquired by the town of Addison?
- h. What is the present condition of the property and how is it used?
- i. How will the property be used?
- j. What is the fair market value (FMV) of the property?
- k. What will be done with the proceeds from the property?
- l. A comparison of the relative advantage or benefit to the airport from the sale of property as opposed to retention for rental income.
- m. Provide a scaled drawing showing all airport property and facilities currently obligated for airport purposes by agreements with the United States. Include the land appraisal for the land you request to be released.

If you have any questions, please call Mr. Charles T. Carroll at (817) 222-5654.

Sincerely,

Otis T. Welch

Manager, Texas Airport Development Office

Re: Keller Springs Toll Tunnel

Dear David:

Enclosed please find copies of the following documents:

- The Interlocal Agreement By and Between The Town of Addison and Texas
 Turnpike Authority (Part II of the Interlocal Agreement applies to the toll tunnel);
 and
- 2. A letter from John Baumgartner, City Engineer, relating to the location of the west portal of the tunnel (this was requested by Richard Dooley).

Very truly yours,

John M Hill

Re: Toll Tunnel Agreement

Dear David:

Enclosed please find a revised draft of the Settlement and Amendment to Lease Agreement with all exhibits attached. Also enclosed is a redlined copy of the Agreement showing the most recent changes made, as well as some of the changes which were missed and which we discussed yesterday over the telephone.

John Baumgartner and Sam Stuart met today to discuss the final amount to be paid. The amount agreed upon is reflected in Section 4 (page 6), and is subject to modification which I have attempted to describe in new Exhibit N.

After you have had an opportunity to review the Agreement, please give me a call if you have any questions or comments.

As you know, the Town Council is to consider the Agreement on Tuesday evening, April 8. AATI and H & S Ventures will need to have signed the Agreement prior to that meeting, and preferably no later than Tuesday morning.

Again, please give me a call if you have any questions or comments.

Very truly yours,

John M. Hill

Re: Keller Springs Toll Tunnel

Dear Frank:

As we discussed over the telphone this afternoon, enclosed please find three (3) originals of the Grant of Easements and the Grant of Temporary Construction Easements. On the Grant of Easements, I have marked with a yellow tab page 2 where the Dooley Road easement area is referred to as "The Dooley Road Relocation Area." On Exhibit B (page 10 of 10) of the Grant, that easement area is referred to as "The Dooley Road Easement Area." I would suggest that the reference on page 2 of the Grant of Easements be changed to "The Dooley Road Easement Area." Once this change is made, please mail me a new copy of page 2.

As always, thanks for your help and cooperation. Please give me a call if you have any questions.

John M. Hill

Yery troly yours.

SECTION F - COMMENTS

REPORTING UNIT: ENGINE 101

F101

UPON ARRIVAL E101 FOUND A CAR THAT HAD HIT A POLE AT THE LOCATION, CLOSER INVESTIGATION REVEALED THAT THE DRIVER WAS PINNED IN THE CAR. E101 CALLED FOR A RESCUE RESPONSE, AND PULLED AND CHARGED A 1 3/4" LINE. HEDIC 101 AND ENGINE STARTED EMERGENCY MEDICAL CARE OF THE DRIVER, AND CALLED FOR CAREFILTE. IT WAS OBVIOUS THAT THE DRIVER HAD SUSTAINED MASSIVE INJURIES, AND WAS NOT BREATHING. RESCUE 101 CREW USED THE RAMS AND CUTTERS TO FREE THE PATIENT. CAREFILTE CAME AND BECAUSE OF THE INJURIES AND NO PLUSE DECIDED THAT GROUND TRANSPORT WOULD BE MORE APPROPRIATE. WE SENT 2 PARAMEDICS TO THE HOSPITAL WITH HEDIC 101.

Regarding: Here are modified Summary and Page 7 of the Toll Tunnel budgets. They
have changed to reflect the sale price BancOne set on their hanger after our meeting
Tuesday. As you can see, we picked up \$46,000 from our budgeted amount. Also
included for John and Pat is the AATI lost revenues sheet I did. Please call with any
questions or comments.
