

OWNER'S CERTIFICATE

STATE OF TEXAS

COUNTY OF DALLAS

WHEREAS ADDISON STORAGE ASSOCIATES, LTD. is the owner of a tract of land situated in the William Lomax Survey, Abstract No. 792, Town of Addison, Dallas County, Texas and being parts of a certain eight acre tract of land conveyed to Broughton and Ericson by Robert L. Roberts according to the deed recorded in Volume 4350, Page 491, Deed Records, Dallas County, Texas and being more particularly described as follows:

BEGINNING at an "x" cut in the top of a concrete inlet box found in the west line of Addison Road (a 60 foot right-of-way) at the intersection of the west line of said Addison Road and the south line of Ratliff Lane (a 50 foot roadway easement dedicated to the Town of Addison by instrument recorded in Volume 69087, Page 1874, Deed Records, Dallas County, Texas);

THENCE South along the west line of said Addison Road a distance of 187.69 feet to a 1/2 inch iron rod found for corner in the north line of Glenn Curtiss Street (a 50 foot private road);

THENCE West along the north line of said Glenn Curtiss Street a distance of 409.75 feet to a 1/2 inch iron rod found for corner;

THENCE North parallel with Addison Road a distance of 187.69 feet to a 1/2 inch iron rod found for corner in the south line of said Ratliff Lane;

THENCE East along the south line of said Ratliff Lane a distance of 409.75 feet to the POINT OF BEGINNING and containing 76,906 square feet or 1.7655 acres of land.

KNOW ALL MEN BY THESE PRESENTS:

THAT ADDISON STORAGE ASSOCIATES, LTD. ("Owner") do hereby adopt this replat designating the hereinabove property as the ADDISON STORAGE ADDITION - LOT 1, BLOCK A, an addition to the Town of Addison, Texas, and, subject to the conditions, restrictions and reservations stated hereinafter, owner dedicates to the public use forever the streets and alleys shown thereon.

The easements shown on this plat are hereby reserved for the purposes as indicated, including, but not limited to, the installation and maintenance of water, sanitary sewer, storm sewer, drainage, electric, telephone, gas and cable television. Owner shall have the right to use these easements, provided however, that it does not unreasonably interfere or impede with the provision of the services to others. Said utility easements are hereby reserved by mutual use and accommodation of all public utilities using or desiring to use the same. An express easement of ingress and egress is hereby expressly granted on, over and across all such easements for the benefit of the provider of services for which easements are granted.

Any drainage and floodway easement shown hereon is hereby dedicated to the public's use forever, but including the following covenants with regards to maintenance responsibilities. The existing channels or creeks traversing the drainage and floodway easement will remain as an open channel, unless required to be enclosed by ordinance, at all times and shall be maintained by the individual owners of the lot or lots that are traversed by or adjacent to the drainage and floodway easement. The City will not be responsible for the maintenance and operation of said creek or creeks or for any damage or injury of private property or person that results from the flow of water along said creek, or for the control of erosion. No obstruction to the natural flow of water run-off shall be permitted by construction of any type building, fence or any other structure within the drainage and floodway easement. Provided, however, it is understood that in the event it becomes necessary for the City to channelize or consider erecting any type of drainage structure in order to improve the storm drainage, then in such event, the City shall have the right, but not the obligation, to enter upon the drainage floodway easement at any point, or points, with all rights of ingress and egress to investigate, survey, erect, construct or maintain any drainage facility deemed necessary by the City for drainage purposes. Each property owner shall keep the natural drainage channels and creeks traversing the drainage floodway easement adjacent to his property clean and free of debris, silt, growth, vegetation, weeds, rubbish, refuse matter and any substance which would result in unsanitary conditions or obstruct the flow of water, and the City shall have the right of ingress and egress for the purpose of inspection and supervision and maintenance work by the property owner to alleviate any undesirable conditions which may occur. The natural drainage channels and creeks through the drainage and floodway easement, as in the case of all natural channels, are subject to storm water overflow and natural bank erosion to an extent that cannot be definitely defined. The City shall not be held liable for any damages or injuries of any nature resulting from the occurrence of these natural phenomena, nor resulting from the failure of any structure or structures, within the natural drainage channels, and the owners hereby agree to indemnify and hold harmless the City from any such damages and injuries. Building areas outside the drainage and floodway easement line shall be filled to a minimum elevation as shown on the plat. The minimum floor elevation of each lot shall be shown on the plat.

The maintenance or paving of the utility and fire lane easements is the responsibility of the property owner. All public utilities shall at all times have the full right of ingress and egress to and from and upon the said utility easements for the purpose of constructing, reconstructing, inspecting, patrolling, maintaining and adding to or removing all or parts of its respective system without the necessity at any time of procuring the permission of anyone. Any public utility shall have the right of ingress and egress to private property for the purpose of reading meters and any maintenance and service required or ordinarily performed by that utility. Buildings, fences, trees, shrubs or other improvements or growth may be constructed, reconstructed or placed upon, over or across the utility easements as shown; provided, however, that the owner shall at its sole cost and expense be responsible under any and all circumstances for the maintenance and repair of such improvements or growth, and any utility shall have the right to remove and keep removed all or parts of any buildings, fences, trees, shrubs or other improvements or growth which in any way endanger or interfere with the construction, maintenance or efficiency of its respective system or service.

Water main and sanitary sewer easements shall also include additional area of working space for construction and maintenance of the systems. Additional easement area is also conveyed for installation and maintenance of manholes, cleanouts, fire hydrants, water service and sewer services from the main to curb or pavement line, and the descriptions of such additional easements herein granted shall be determined by their locations as installed.

This plat is approved subject to all platting ordinances, rules, regulations and resolutions of the Town of Addison, Texas.

WITNESS my hand at Addison, Texas, this the 20th day of January, 1999
